ABOVE the Above &

Beyond

What more can I do?
4/6/2020 – 4/10/2020

Algebra 1: Remember, these are additional OPTIONAL materials. If you wish to complete them, please complete them in USA Test Prep before **Monday 4/13/2020**

I realize 4/6/2020 - 4/10/2020 is a week off of school for Spring Break. However, our GA Milestone for Algebra 1 is fast approaching (May 11th & 12th). We have several more topics to cover before the exam (leaving little time for review), so as an additional (as always optional) above and beyond, I would like for the students to work on Milestone Practice Exams via USA TestPrep. I have generated 4 practice tests that model questions similar to those students will see on the GA milestone. These each range in length and problem type. Each student has an account and that is automatically linked to my class, and therefore I will be able to see their results electronically. To access these, students will need to go to [https://www.usatestprep.com/](https://www.usatestprep.com/) and click the orange login button at the top of the screen.

**Student login information is as follows:**

- **Account ID:** wwtigers82
- **Username:** lastnamefirstname
- **Password:** wwtigers

Again, if you wish to complete them, please do so in the window between 4/6/2020 – 4/12/2020.
